### MA Information Science

Masaryk University, Brno · 2019 – 2021

### BA Information Science

Comenius University, Bratislava · 2016 – 2019

## Recent learning

FinOps Essentials · UX Foundations: Interaction Design · Game Design Foundations · Leadership: Practical Skills · Introduction to AI

## Awards

EduHack 2021 – 3rd place

# Štefan Kukla

INTERACTION DESIGNER · VALENCIA

*I design across products, not just inside them.*

Slovak interaction designer with five years at Red Hat, working across RHEL, OpenShift, ACM, Ansible, Satellite and Developer Hub. Most of my work happens in the spaces between products – shared capabilities, cross-team workflows, multi-persona access control. I'm currently looking for senior interaction design work, ideally around cloud, observability, platform tools or gaming.

## Experience

### Red Hat

Five years across enterprise infrastructure · Feb 2021 – present

**Interaction Designer** · Apr 2023 – present · Spain.

**Associate Interaction Designer** · Dec 2021 – Apr 2023 · Barcelona & Czechia.

**User Experience Designer** · Feb 2021 – Dec 2021.

Lead designer on cross-cluster live migration (the first UI for that operation anywhere in the OpenShift ecosystem), cost management and resource optimisation across three products, Pathways inside Insights Advisor, the Lightspeed Remediation workflow, and the ACM RBAC redesign. Ran two rounds of usability research with around 15 participants combined. Authored UX strategy proposals that shifted leadership conversations from "polish this flow" to "the model is wrong".

### Generali Česká pojišťovna

Unstructured data analyst · Jun 2020 – Jan 2021 · Brno

Worked with unstructured data pipelines in an insurance context – adjacent training for the data-heavy interaction design that came after.

**IT Help Desk** · Comenius University, Bratislava · Sep 2018 – Jun 2019.

**Assistant Librarian** · Slovak National Gallery · Summer 2018.
